ARTIFICIAL GRASS

A LOW MAINTENANCE AND VISUALLY STUNNING PRODUCT

In recent years artificial grass has become a trendy product and you probably now know someone in your circle of friends who has a fake lawn in their garden. More and more people are ditching their lawn mowers as our products are well suited to today's modern busy lifestyle and with week-end time a premium for the majority of families, the last thing you want is wasting valuable time mowing your lawn. With artificial grass you can maximise your garden and family time – winner!

HOW MUCH DO I NEED?

This matrix is designed to give you a rough idea of how much material you'll need to do your job. **BASED ON 100mm THICK.**

EXAMPLE:...Let's say you need to make a shed base and the area you need to concrete is 2.4m x 1.8m (8' x 6' in old money). If you look in the chart to see the outlined box this is the nearest size in the matrix (although slightly over) i.e. 1 tonne of product.

Take a minute to look at this chart and read the info....it's a handy guide to working out how much stuff you'll need.
Any probs, ask our staff!

We Are
Here

Conveniently situated in between Weymouth & Dorchester on the B3159 at Broadway is Old Station Yard. Our shop & offices were once the Station House of the old rail line, which ran to the village of Abbotsbury via Portesham with goods and passengers from 9 November 1885 until 1 December 1952.

This booklet is designed to give you an overall idea of the products we supply to both the Trade & the DIY markets. We are proud members of the h&b Buying Group and NMBS. This huge buying power transposes into a great product portfolio and more importantly, competitive prices!
